Building the Future

> *When we invest in students and young professionals, we are doing much more than supporting an individual. We are investing in the future leadership of ACI and the long-term success of our industry.*

ANNUAL APPEAL 2026

> *In addition to the impact of the direct financial assistance, this gave me another avenue to get involved in ACI by attending conventions. Those provided incredible opportunities for me to expand my technical knowledge, connections within the concrete world, and involvement with ACI technical committees.*

Dear

The ACI Foundation is committed to building the future of the concrete industry. Through investments, we support the people who will lead that future, including students, young professionals, researchers, and veterans.

For many students and young professionals, attending an **ACI Concrete Convention** can change the course of a career. It is where they gain technical knowledge, share their work, build meaningful connections, discover opportunities, and take their first steps toward leadership. For many, the cost of attending stands in the way.

This year's appeal helps remove that barrier.

The **Student Leadership Convention Fund** provides travel stipends so student leaders in ACI Committee S805 can attend the ACI Concrete Convention and participate in person.

The **Young Professionals Convention Fund** helps offset convention registration costs for rising professionals and expands the Women in ACI Young Professional Registration awards to reach even more individuals.

The **Veteran Certification Assistance Program** has already assisted nearly 400 veterans. Now fully funded by the ACI community, the program relies on continued support to extend into 2027.

Please consider a gift to one or all funds at **www.acifoundation.org/giving** or through the enclosed envelope. Every contribution helps create opportunities, strengthens our industry, and shapes the future.

Thank you for investing in the people who will build tomorrow.

Warm regards,
