## ACI Foundation's Councils Welcome New Vice Chairs

We are pleased to announce that both the Concrete Research Council (CRC) and the Strategic Development Council (SDC) have appointed new Vice Chairs to join the leadership of the respective councils.

Sulapha Peethamparan, Clarkson University, now serves as the Vice Chair for the CRC. The CRC issues an annual request for proposals for concrete research, seeking projects that further the knowledge and sustainability of concrete materials, construction, and structures in coordination with ACI committees. Members provide reviews of proposed research projects and ideas for concrete research.

The SDC has appointed John Hausfeld, Baker Concrete Construction, Inc., as the Vice Chair. The SDC provides a forum for the concrete industry where senior-level professionals from member organizations convene to discuss strategic issues, research needs, and new technology and innovations. Their insight and direction help to provide solutions to industry-wide challenges, improve the quality and potential competitiveness of concrete, and assist the concrete community in timely adoption of technologies, best practices, and solutions.

All of our councils' volunteers expend their time and commitment to move ACI Foundation work forward and to help promote progress in the concrete industry. We would like to thank Sulapha, John, and all council members

for their effort, leadership, and input into furthering our programs to have a positive impact on the concrete industry.

To learn more about the CRC, visit [www.acifoundation.org/research](http://www.acifoundation.org/research).

To learn more about the SDC, visit [www.acifoundation.org/technology](http://www.acifoundation.org/technology).

## ACI Foundation Board of Trustees

The ACI Foundation's Board of Trustees has re-elected two Trustees: Joseph Bracci, Texas A&M University; and Antonio Nanni, University of Miami. We would like to thank each of them and the other trustees for their time and commitment to providing oversight for the ACI Foundation and its councils.

### Donor Highlight

Over the last couple of years, Advancing Organizational Excellence (AOE) has donated \$200,000 to the ACI Foundation! We are so grateful to have AOE in our donor community. The impact of this goes beyond the monetary contributions, as they have become a valuable partner of ACI, the ACI Foundation, and the concrete industry as a whole.

## Thank You to Our 2019 Top Donors!

Donor gifts open new doors in the industry and make a major impact on the future. The following groups and individuals are recognized for their contributions:

### Visionary (\$15,000+)

Advancing Organizational Excellence  
American Concrete Institute  
Baker Concrete Construction, Inc.  
Carolinas Chapter – ACI  
Louisiana Chapter – ACI

### Innovator (\$10,000 to \$14,999)

Ron Burg and Jill Humphrey  
Jeff and Ayanna Coleman  
CVM  
Cary Kopczynski  
David and Risë Lange

### Benefactor (\$5000 to \$9999)

Kimberly Kayler

### Scholar (\$1000 to \$4999)

Crimson Engineering Associates, Inc.  
Trey Hamilton  
Charles and Jennifer Hanskat  
Jim Jirsa  
William Klorman  
Michael and Debra Kreger  
Edward Levy Jr.  
Jack Moehle  
Michael and Paula Paul  
Randy and Bonnie Poston  
Aleksandra Radlińska  
Mike Schneider  
Surendra Shah  
Michelle Wilson
